

Spreader Bar for Forklift

Forklift Spreader Bars - ELME has been proudly operating since the year 1974, becoming the biggest independent spreader business all over the world. They are a devoted producer of spreaders meant for a lot of several applications such as the handling of containers, swap bodies and trailers.

Engineering is done in house by way of making use of the newest CAD systems and FEM tools. The ELME business now has over one hundred twenty five personnel. Their spreaders are supplied to reach gantry, quayside, ship-to-shore cranes, stackers, straddle carriers and lift trucks across the globe.

The ELME product collection offers spreaders designed for a variety of trailer and container handling operations. Several of their inventory comprise: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes in addition to a wide variety of additional parts.

Production and manufacturing of ELME products are developed in highly automated purpose built factory. In the year 2008, they created 1150 spreaders by means of using quality parts in order to ensure reliability and top standards. Major features of ELME include design simplicity, market response and innovative modular spreader concept.
