

Hyundai Forklift Parts

Hyundai Forklift Parts - Hyundai Heavy Industries has been manufacturing and providing numerous kinds of construction equipment since the year 1985, including: skid steer loaders, forklift trucks, wheel loaders and excavators. The division of heavy industry operates a highly effective and efficient product supply system. This particular system is driven by zero-tolerance policy, excellent quality control and one of the most superior automatic production lines.

Led by a group of 477 distributors in 110 countries, construction equipment has been launched into the rising markets of Russia, the Middle East, Central and South America, and Africa. Local Hyundai subsidiaries have been established in the USA, India, China and Europe.

The Construction Equipment Division within Hyundai Heavy Industries strives to satisfy and exceed all their customer's expectations by constructing reliable and effective equipment and offering outstanding after sales service. Customer service is further maintained by their dedication to deliver service parts in a timely manner so as to lessen their customer's "downtime." Hyundai likewise welcomes buyer suggestions in order to project their clients' requirements and market requirements onto product development, production and sales policies. Hyundai just competes with the various leading brands in the trade.

Hyundai Heavy Industries sincerely value all their customers. The company is really committed to continually enhance their service and merchandise even further. All of the firm's managers and workers strive to maintain this reality with the utmost dedication in their products and assistance. One of their major ambitions is to be able to help make their customers' business even more successful.
